THE Courrier d'Haiphong, in an article of which we published a translation vesterday, compares the relative advantages England and France possess in reference to the Yunnan trade from the territories occupied by them on the frontiers of south-western China. According to our contemporary, Tonquin is it much more direct communication with the rather to the exactions to which trade is subrichest districts of Yunnan than is Burmah. But our contemporary makes a mistake in jected than to the difficulties of navigation or which trade can penetrate Yunnan from the river runs. The opening up of this Burmah. If that were the case the argument | magnificent waterway is a subject which we would stand, and the long list of distances hope the Chamber of Commerce will not given by our contemporary for the journeys cease to press on the attention of the British to various markets would show that there Logation at P king. was little hope of any great development of trade along those routes. But this exposure of the unfavourable situation of Bhamo is no now thing. Mr. Colounoun, in his " Across Chryse" says :- " Regarding the Bhamo route, the physical difficulties between Bhamo and Tali preclude all idea of this track ever serving the purpose of a general trade form us that the Ocean Steamship Company's route to Yunnau. Mr. BABER has effectually on Thursday for this port. disposed of this question in his most charming and luminous report of his journey, when he was attached to the Grosvenor Mission. Having travelled over the ground, I would there add my testimony to his opinion that trade from Bhamo can never penetrate east of Tali. I believe myself that the only raison detre of this route is the fertile Taping val- vacant ground on the French Concession, troubles, to be invaded and annexed, and in 1878 ley, which serves to attract a certain amount of trade from Bhamo, and of this a very small portion drags its way on to Tali. The same writer says the configuration of Yunnan is such that no single route can reach or tap the whole of the province, and the portions which we wish to got at are on the south-west and west. He says, further: -"The Sengkoi river, which runs through a part of Yunnan and falls into the Touquin Gulf, will, I believe, serve the purpose of attracting the trade which lies on the S.E. Hongkong, arrived there per Nagato-mura, en frontier, and also of the portion of the province lying between Manghao and the capital. But it will never, I believe, answer any further purpose than the above." To reach the south-western part of Yunnan, which Mr. CoLOUROUN considers the richest and most important, he gives a College. CORRESPONDENCE.

[We do not hold ourselves responsible for the opinions expressed by our Correspondents.]

THE PUBLIC HEALTH BILL. TO THE EDITOR OF THE "DAILY PRESS." Sir.—Although "Caveat" is making a great fuss. I think, from the lack of other letters on his side, that, to use his own words slightly altered, "the laws for the proper sanitary maintenance of common dwelling houses is not exciting much discussion, as the right of the Government to attach conditions to its leases is undoubted. If lessees think them unreasonable they can decline their acquisition." The talk about breach of faith seems to me absurd, as the lessees bind themselves to submit to all regulations to be subsequently made by the Government, by whom the fullest powers are reserved. The land lords as such have therefore no say whatever That "Caveat" is a landlord seems very evident from his saving that "the attempt to regulate the number of persons inhabiting houses at night . . . . is nothing more nor less than class legislation directed against the Chinese in this Colony, by those who have little or no interest in the multiplication of their numbers." This appears to be the explanation of all the opposition. "Caveat" and his friends are very surious to multiply the number of Chinese but not to increase the number of houses; being, like those who used to run the baraccons at Macao pretty sure to get an average amount out of each coolie, and therefore, of course, the more the merrier. Something in this connection reminds me of the joke perpetrated by a letter writer in your columns a couple of years ago or so: gentleman who was building some cheap houses was designated a "Philanthropist." (The houses are let at what will cover their cost exclusive of the ground, which here a very exceptionally small proportion, in less than four years). Perhaps "Caveat" is also

A sulphur station about six miles from Canton has been pulled down by the dealers in firecrakers. who have also destroyed a guard boat. It is alleged by the dealers that a quantity of sulphur belonging to them was illegally seized by the officials at this station, hence the retalistion. The agitation against the seizure has not ceased with this display of feeling; upon the despatch of a wei-yuen to inquire into the matter and punish the destroyers of the station and boat, all the firecracker shops in the district were closed, and so remain, as a further protest.

Robber bands are growing increasingly daring in this province, and greater inscourity is felt than has been the case for some time past. The Prince's salary, when the naval estimates were robbers are growing more audacious, and take prepared. higher flights. News has been received here of a rather big raid in the Sun On district. About a week ago the largest pawnshop at Nam-tau, named Cheung Fat, was attacked by a band of about two hundred men, who succeeded in carrying away property to the value of upwards of of New York, as reported in a special despatch \$35,000. The loot consisted of portable valuables, including quantities of gold and silver bangles and earrings, jadestone bracelets and ornsments, and other articles. The robbery was not effected without a contest. The pawnshop asmistants sided by some of the neighbours made a 21 sees, and lost by 4 min, 23 sees. stout resistance to the burglarious band, and it was only after some three hours' hard fighting, in the course of which two of the assailants were killed and two captured, that the ruffiaus managed to effect their purpose. Two watchmen belonging to the pawnshop and several of the townspeople were killed and about ten persons wounded by the robbers. The affair has been reported to the Vicerov, and great efforts will doubtless be made to arrest the leaders of this dangerous gang.

THE LOSS OF THE CUINA NAVIGA-TION CO.'S STEAMER "TIENTSIN."

No form of medication can be better than a pill, provided only it is intelligently prepared. But right here occurs the difficulty. Easy as it may seem to make a pill, or a million of them, there are really very few pills that can be honestly mention what a good, safe, and reliable pill should be. Now, when one feels dull and sleep y and has more or less pain in the head, sides, and back, he may be sure his bowels are constipated, and his liver aluggish. To remedy this unhappy state of things there is nothing like a good cathartic pill. It will not like a charm by stimulating the liver into doing its duty, and ridding the digestive organs of the accumulated poisonous matter.

But the good pill does not gripe and pain us neither does it make us sick and miserable for a few hours or a whole day. It acts, on the entire glandular system at the same time, else the aftereffects of the pill will be worse than the disease itself. The griping caused by most pills is the result of irritating drugs which they contain. Such pills are harmful, and should never be need. They sometimes even produce hemorrhoids. Without having any particular desire to praise one pill above another, we may, nevertheless, name Mother Seigel's Pills, manufactured by the well-known house of A. J. White, Limited, 35. Farringdon Road, London, and now sold by all chemists and medicine vendors, as the only one we know of that actually possesses every desirable quality. They remove the pressure upon the brain correct the liver, and cause the of the stomach, or any other unpleasant feeling or symptom Neither do they induce further constipation, as nearly all other pills do. As a further and crowning merit, Mother Seigel's Pills are covered with a tasteless and harmless coating, which causes them to resemble pearls, as they are effective in curing disease. If you have a severe cold and are threatened with a fever, with pains in the head, back, and limbs. one or two doses will break up the cold and prevent the fever. A coated tongue, with a brackish tasto in the mouth is caused by foul matter in the stomach. A dose of Seigel's Pills decayed food in the stomach and bowels produces sickness, nausea. &c. Cleanse the bowels with

a dose of these pills, and good health will follow. Unlike many kinds of pills, they do not make you feel werse before you are better. They are, without doubt, the best family physic ever discovered. They remove all obstructions to the natural functions in either sex without any unpleasant effects.

### POST-OFFICE NOTICES.

When Correspondence has been mis-sent of delayed (both of which are liable to happen occasionally) all that the addressee need do is to note on the cover. Sent to ---- or Received at 7 p.m., or as the case may be, and forward it, without any other writing whatever, to the Postmaster General. This should be acted on the first time cause of complaint occurs; it is a mistake to let such matters pass for fear of giving trouble, a course which generally gives more trouble in the end.

LOCAL DELIVERY-No delivery is attempted on board Ship, at the Peak. Kowloon, Aberdoon, &c., nor at uny private bouse (even though named in the address) when there is a place of business nearer, at which delivery can be effected The Postal Guide for 1886, revised to date will be found in the Daily Press Directory.

Postal information published in Hongkong. The anthorised List of Mails issued in onnection with this paper is the one published twice each day in our Extra, which is always corrected to a much later hour than that given
